Introduction

ISM Containers is the design, build and delivery arm of ISM Africa with a focus on modular homes and container based structures. Over the years we've converted hundreds of containers for a wide range of applications, including shops, homes, catering, office, retail, rental assets, and industrial structures at our manufacturing yard in Nairobi, Kenya.

Our team delivers structures 30-50% faster than traditional construction methods ensuring customer satisfaction from initial discussions, ideas, sketches or structural drawings, building, logistics and installation of the final product.

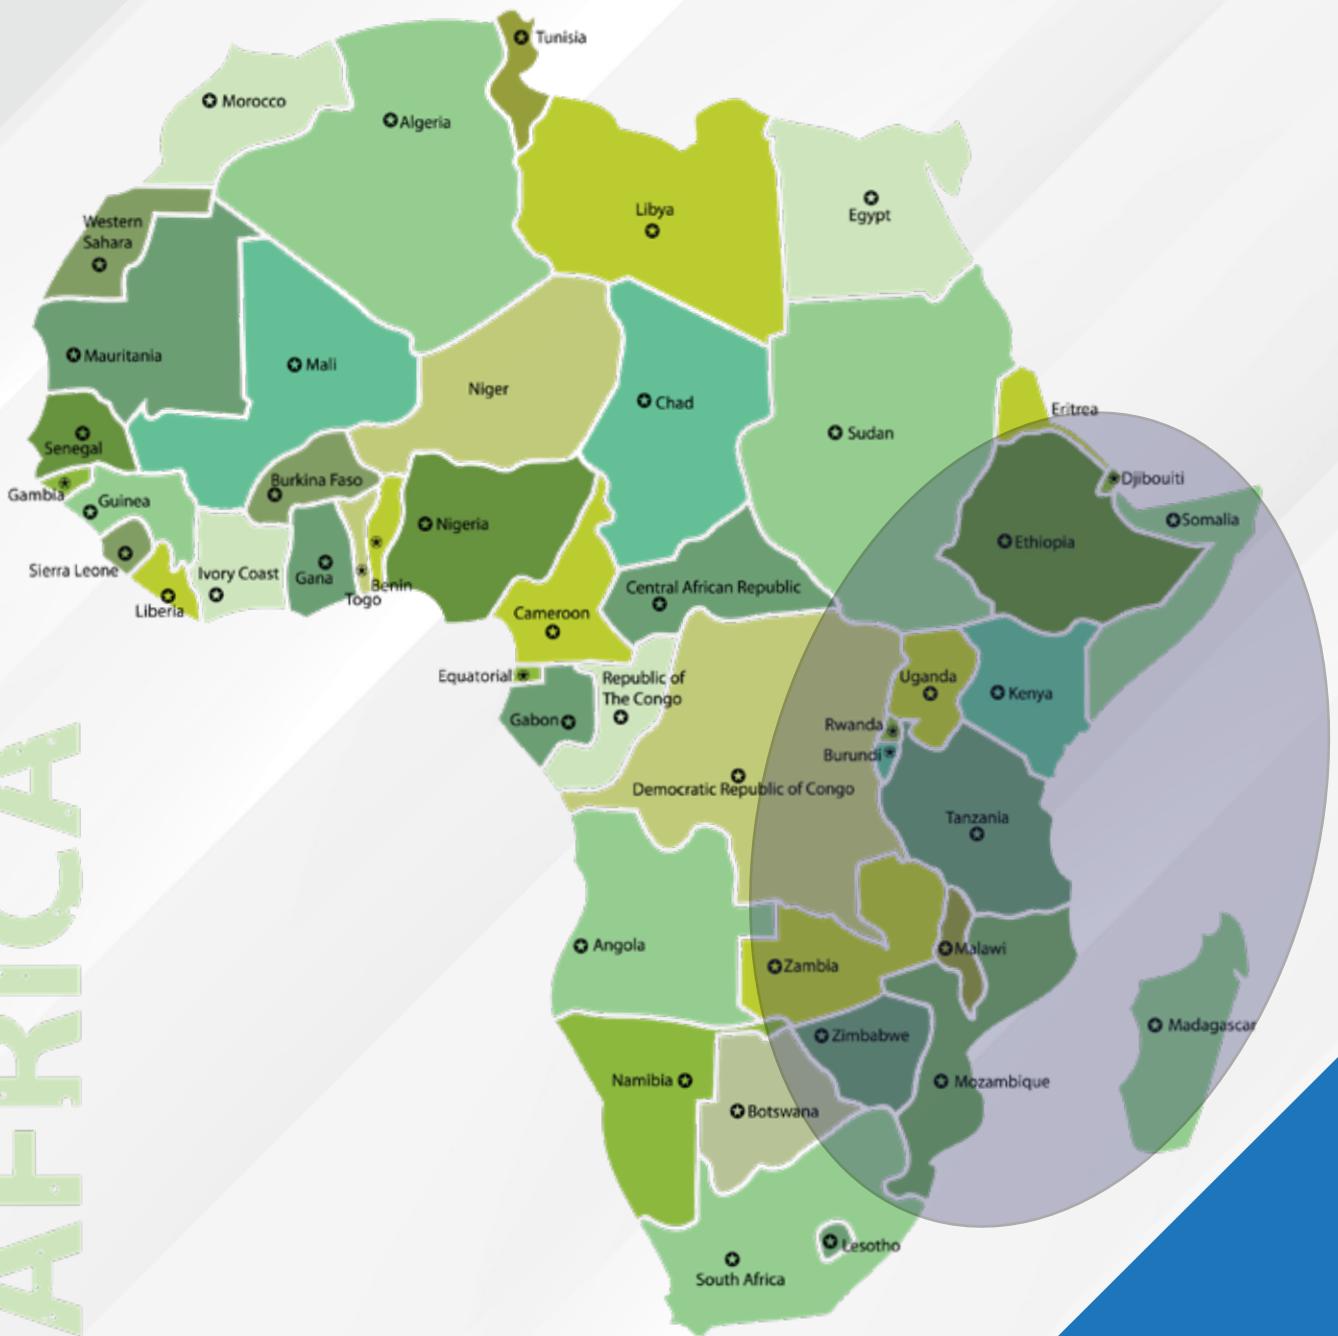

Regional Foot Print

Our manufacturing facility is based in Kenya, ideally positioning us to supply to the whole of East Africa and able to service Comesa Countries.

We have the advantage of being to able supply via road network to Tanzania, Rwanda, Uganda, Ethiopia, Congo and South Sudan.

And we are able to cover the rest of the region by shipping through Mombasa including Somalia and Mozambique as well as Madagascar.

Services

Design

Our in-house design and engineering team plans every conscientious detail of your project with 3D renderings to capture all your needs and desires with required standards in mind.

Manufacturing

ISM use the best available materials in our construction and meet all international building codes and regulations.

Logistics

ISM's teams are familiar with the region and able to help deliver your containers to even the remotest of locations.

Installation

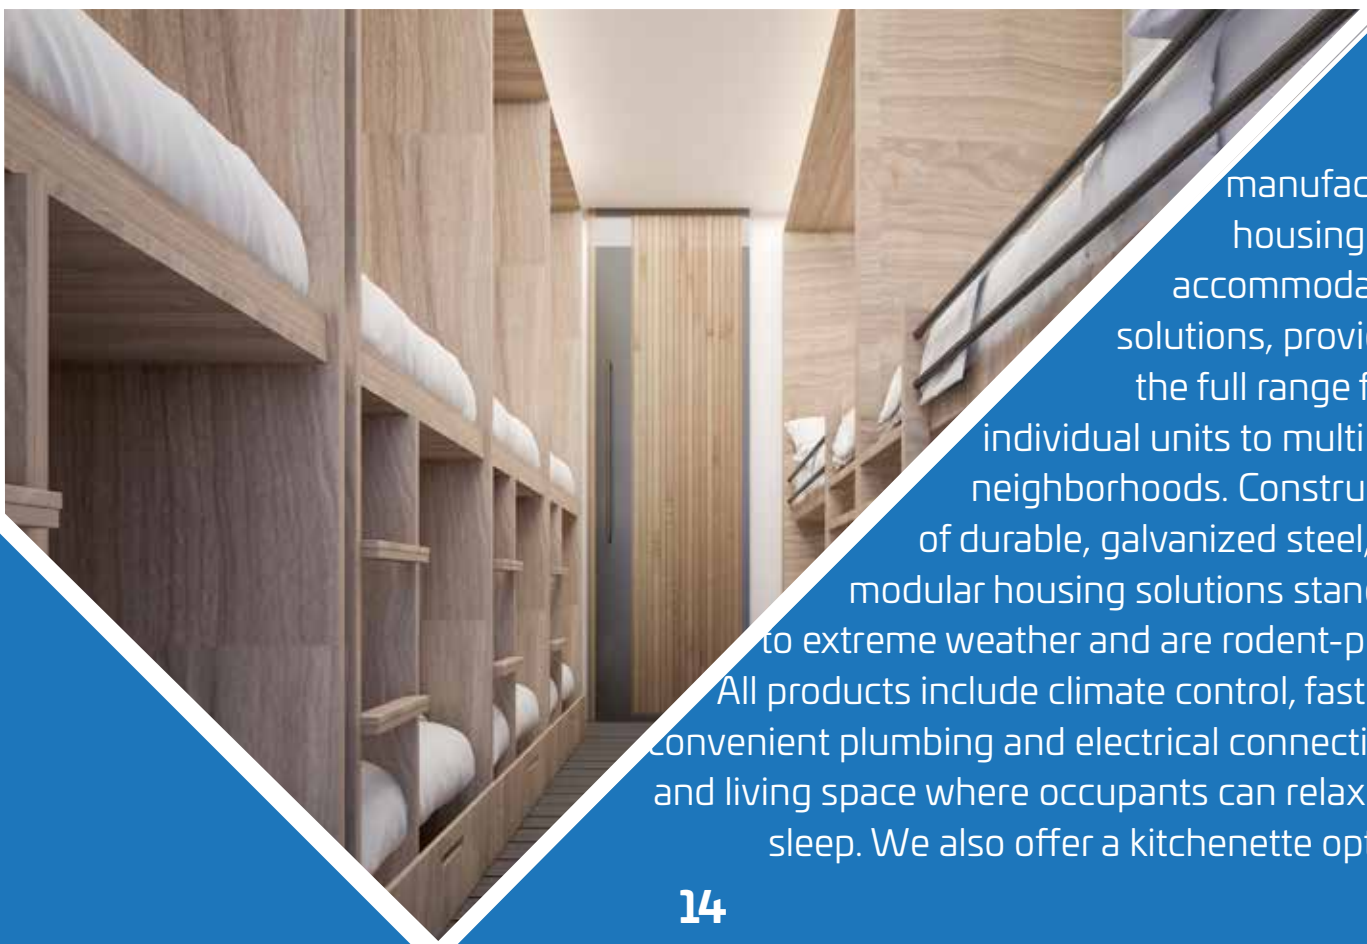

ISM able to install the containers onsite. We use the latest technology to reduce costs and installation time.

Container Solutions

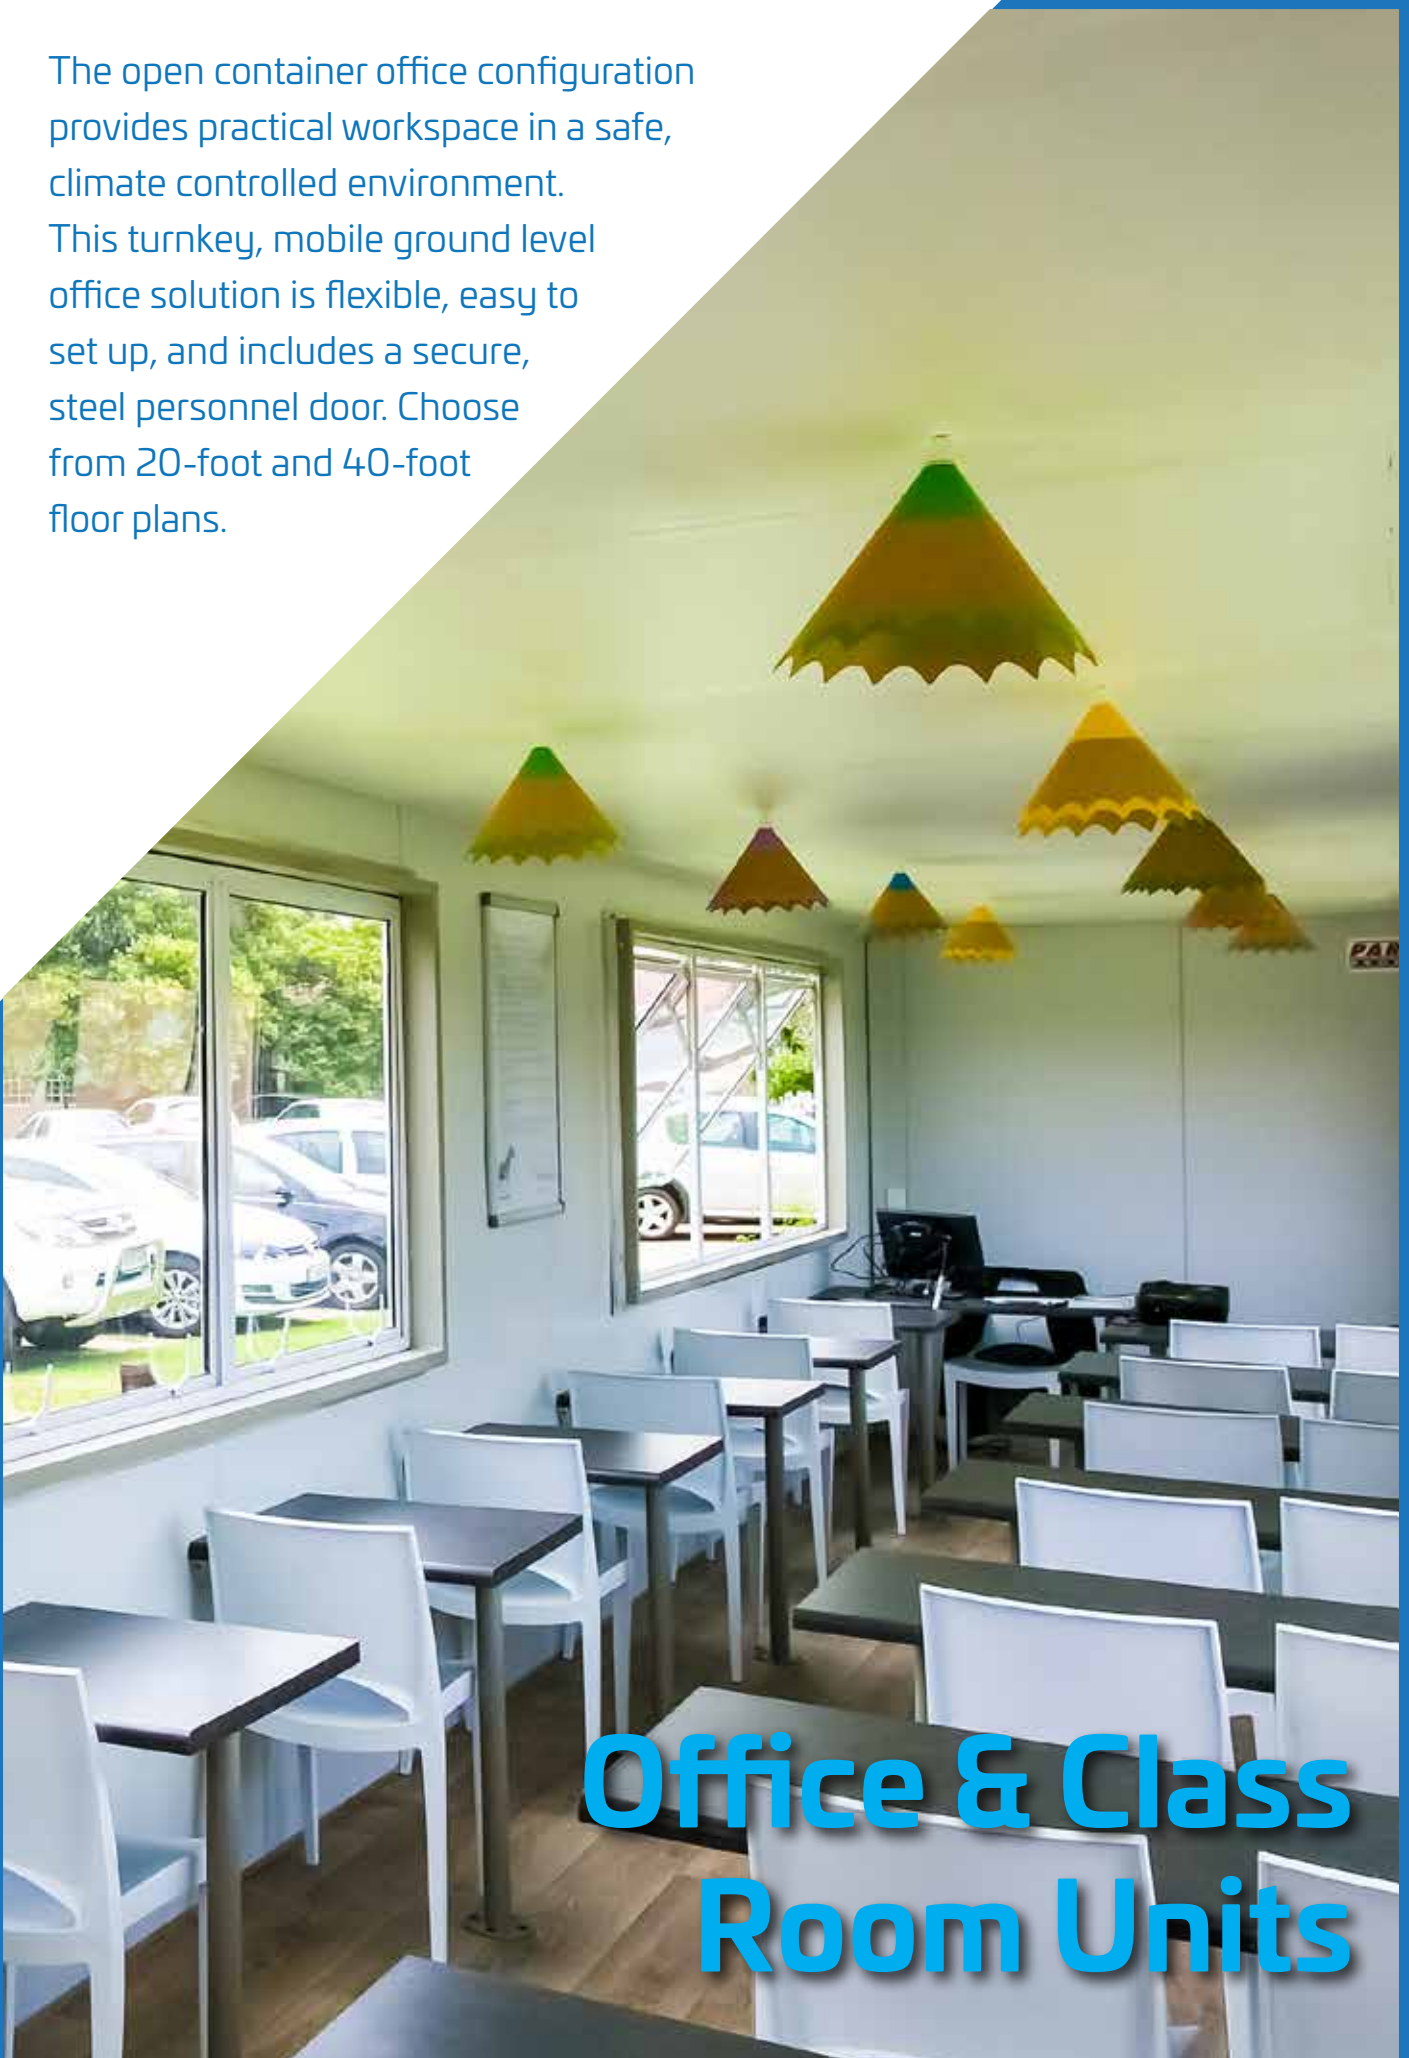

Accommodation Units

We manufacture housing and accommodation solutions, providing the full range from individual units to multi unit neighborhoods. Constructed of durable, galvanized steel, our modular housing solutions stand up to extreme weather and are rodent-proof. All products include climate control, fast and convenient plumbing and electrical connections, and living space where occupants can relax and sleep. We also offer a kitchenette option.

The open container office configuration provides practical workspace in a safe, climate controlled environment. This turnkey, mobile ground level office solution is flexible, easy to set up, and includes a secure, steel personnel door. Choose from 20-foot and 40-foot floor plans.

Office & Class Room Units

Kitchen & Dining Units

ISM creates eco-friendly, turn key and customized container kitchens, restaurants, bars, event & retail spaces. We customize the equipment to meet your requirements and use high quality goods, designed to be durable and affordable.

Storage Solutions

Modular and easy to relocate, ISM's modified containers provide a sturdy, flexible solution for short- and long-term storage needs. ISM's range of storage containers are constructed of durable steel and finished with marine-grade, wood flooring. They require no special foundation and can be easily relocated.

Available in a variety of configurations, our containers stand up to extreme weather and resist pests. We even offer climate controlled solutions for added protection from the elements. Securely store equipment, supplies, files, and more in either 20-foot or 40-foot storage containers.

Refrigerated Containers & Cold Rooms

ISM manufactures refrigerated shipping containers used to store or transport frozen or cold goods, perishable items or goods that require temperature control. Reefers make an excellent, portable solution to short or long term storage and can be used to ship or truck goods over long distances as they can be plugged into the power station or have clip on generators attached. Available in 10ft, 20ft and 40ft sizes.

Shops, bars, restaurants

.....

ISM has developed a unique product to East Africa. We can design your restaurant, bar and shop in a way that maximizes the space and accommodates the theme that you want for your business. There are a lot of options to choose from, but you never have to worry about setting up because our experts at will do the job for you.

Clinics and Hospitals

ISM has various solutions for clinics and field hospitals. Our units are tailored to your specifications and include all the medical equipment.

ISM's range of self bunded tank containers are double skinned eliminating the requirement for external bunding, we have models which are suitable for transport and/or long and short term above ground storage of hydrocarbons including fuel, lubricants and LPG. All are containerised for intermodal transport and convenient relocation and come in 20 and 40ft sizes.

Fuel Solutions

Security Solutions

ISM designs and constructs customized control rooms and security cabins. We design the system layout including control rooms, access systems and we are able to provide site installation including perimeter fencing, gates and CCTV.

ISM is able to design and build almost any container solution that is required for your business. Our preproduction process leverages over ten years of expertise and our container experts work with you every step of the way to ensure your custom solution meets your unique needs.
